

ORION CNC RETROFIT Features & Specifications

STANDARD FEATURES

- 220V Single Phase
- 3 HP Variable Frequency Drive
- PLC Control Panel
Does Not Require a PC / Windows
- Precision Ballscrews
- Inch, Metric Programming
- MPG (Jog) Wheel
- 4th Axis Ready
- Lockable Cabinet Door With Safety Interlock
- USB Interface
- 500 Watt Braking Resistor
- High Efficiency Cooling Fan With User Replaceable Filters
- 400 Watt True Servo Motors
- 6 Relays For Controlling Peripheral Devices Through M-Functions
- Pre-wired for Power Drawbar Safety Lockout Solenoid
- Made In The USA

OPTIONS

- LED Worklight
- Automatic Oiler
- 5 HP VFD
- Hand Held Pendant
Wireless or Wired
- Power Drawbar
- 4th Axis/Rotary Table
- Transformer For Other Input Voltages
- CE Compliant Version
- Conversational Software
- Power Drawbar Lockout Solenoid
- Coolant Mister
- Machine Vise
- Tooling - Drills, Taps, End Mills, Etc.

ALSO AVAILABLE: ENTRY LEVEL CONTROL PANEL WITH OTHER MOTOR/DRIVE OPTIONS

- Cost effective Entry Level Panel
- 3.5" Screen
- 16MB Storage
- 3 Versions Available:
Inch
Metric
Conversational

SERVO

**SERVO ORION
CNC Retrofit
Packages**

www.servoproductsco.com

The Most Cost Effective and Versatile CNC Retrofit Packages On The Market!

Our CNC retrofit will save you money by allowing you to run less complex jobs on the retrofit machine instead of tying up more expensive machining centers. The benefit will be better use of both the CNC mill and your machining center resulting in more \$avings.

- 1, 2, 3, or 4 Axis Kits
- The Package Shown is a 3 Axis Kit (4th Axis Ready) With Deluxe Panel
- Frequency Drive Included
- Full 3/4 Axis Simultaneous Control
- Precision Ballscrews Included
- All Mounting Hardware Included
- Easy Installation
As Easy As Installing Power Feeds
No Complex Boxes, Brackets,
Belts, Pulleys Etc.

100% Designed and assembled in the USA!

Lathe CNC Retrofit Packages Now Available! Call for Info!
